Additional Information :

Project Details:

Project 1   "I Institute Management"
Team Size   02
Duration   Running
Technologies   iOS7,MAC
Software's   Xcode 5.1.1, Mavericks 10.9
Project Abstract   I Institute Management Apps is work For Adminstator,Staff
and Councellor. Administrator see information about Staff,Cource,Councellor,Student,Account
and generate List and Notification.

Responsibilities
* Involved in the Development of Designing,.
* Database Creating and maintainig.
* Major and Minor bugs fixes.
* Involved in the web service call.

Project 2   "Online Shoping"
Team Size   02
Duration   Running
Technologies   iOS7,MAC
Software's   Xcode 5.1.1,Mavericks 10.9
Project Abstract   This system provide a reliable and efficient Online
Shopping for Snacks and Sweets.In this application user can place order as per their
requirements. Here there is a option for COD and Online Payment is also available.
Here user can buy the selected product rapidly by doing some clicks from home or work saving
time and energy.

Responsibilities
* Involved in the Development of Designing,.
* Database Creating and maintainig.
* Major and Minor bugs fixes.
* Involved in the web service call.

Project 3   "Long Range Identification and Tracking "
Team Size   06
Duration   Aug 2013 to Aug 2014
Technologies   Core java,J2EE , XML, HTML.
Software's   JDK1.6 , Eclipse 3.5 ,Tomcat 5.5, Oracle 10g .
Project Abstract
For maritime safety of ships on international voyage, International Maritime Organization
(IMO) under SOLAS (Safety of Life at Sea) convention has mandated the establishment of a
system, viz., LRIT (Long Range Identification and Tracking). LRIT is primarily intended to
improve marine security and assist with search and rescue (SAR) operations. The LRIT message
transmitted by ships contain its Unique ID (Identification code) position (Latitude and Longitude)

and date and time. Data Centre (DC) could set the transmission interval from Ship's Satellite equipment remotely. Also, the DC could poll the ship at any time as per requirement.

The data Center will store the data and distribute the data to registered users as per Data Distribution Plan (DDP).The data from DC for other countries' DC will be going through an International Data Exchange (IDE) as per DDP through secured communication link. The IDE sets the Data distribution Plan as given by Contracting Government.

Responsibilities
* Involved in the Development of JSP Pages.
* Database maintainig.
* Major and Minor (translation issues.) bugs fixes
* Communicate with the Client Side for requirement gathering and design verifications.

Strengths and Achievements:

* Motivated to take responsibility and be a productive team member
* Good interpersonal and communication skills
