Drilling / Other

Residential Country : Canada Nationality : Colombia
Resume Title : Senior Associate Notice Period : 15 Days

EDUCATION

| Qualification | Institute / College /university | Year | Country |
|---------------|---------------------------------|------|----------|
| B.sc | U De America | 1978 | Colombia |

CAREER SUMMARY

| Position | Employer | Country | From Month/ Year | To Month/ Year |
|--------------------------|--------------------------|----------|---------------------|-------------------|
| Company Man | Reputed Company | Colombia | 09/2014 | / |
| Senior Associate | Servipetrol Ltd | | 01/2009 | 01/2014 |
| Senior Associate | Ziff Energy Group | | 01/2007 | 01/2009 |
| Senior Staff Engineer | Arabian Gulf Oil Company | | 01/2005 | 01/2007 |

ADDITIONAL CERTIFICATE AND TECHNICAL QUALIFICATION

| Name Of The Course | Course Date | Valid Upto | Name Of Organisation |
|--------------------|-------------|-------------|----------------------|
| Iadc Well Cap | 28 Jan 2015 | 28 Jan 2017 | Intertek |

Current Salary (Monthly In Usd): Not Mention Expected Salary (Monthly In Usd): Not Mention

Additional Skills :

Professional Work Experience

Sept 2014 to act. Reputed Company, SA. Workover Company Man for the La Gloria Norte deep 14,000 feet wells for the Los Llanos foothills area. Underbalance perforating. ESP to hydraulic artificial lift system change. Castilla Norte-90, Castilla Norte-10, Castilla Norte-14, Castilla Norte-122.. Carbon-Oxygen log and Underbalance Perforating with packer and Pure system

Jan 2014 Sept. Star Oil and Petro-Staff International, North Sudan. Drilling and completions Company Man for exploratory 3000 ms wells at South Anahjma area in North Sudan

May, Dec 2013 CPA Operations Manager for Pemex contractor, Tampico Mexico. Development and Exploratory drilling, completions, workover and Horizontal wells heavy oil Production Operations for Pemex Contractor in the mature field GoM area.

2009 – 2013 Ecopetrol Bogota drilling Department/ Consultec, Company Man. Los Llanos oil and gas Basin drilling and completion of exploratory Wells Pastinaca-1 and Venus-2. And Bello-1 CPO-11 area, Meta

Vetra Exxon/ Mobil Canacol Company Man. Middle Magdalena oil and gas Basin exploratory deep well Mono arana-1. Drilling and completion Operations

Emerald Energy, PLC- Reikcon. Company Man. Colombia. Gigante-5 and Gigante -3 deep wells completion to 17,000 feet. Nitrogen fluid displacement, underbalance perforating and DST. High Magdalena Oil and gas basin.

Vetra Energy Rio Saldaña field, Colombia Company Man. Reperforating, acid fracturing, cased hole fishing, wáter isolation zone with packers, surfactant treatment and recompletion with ESP pump. Wells Rio Saldaña-1 y Rio Saldaña-2. High Magdalena oil and gas basin

VETRA Energy. Cohembi-1, Pinuna-2, Pinuna-3 and Pinuna-5

Company man for underbalance perforating and ESP with packer recompletion, workover, completion and DST test operations. Putumayo Caguan Oil and gas basin

Petrofast .Castilla field Company Man for drilling and completion operations Company Man.

Directional wells in 5 wells cluster. Wells Castilla-52, Castilla-70, Castilla Norte -61, Castilla Norte-62, Castilla Norte -74. Los Llanos oil and gas basin

Diseno, Ingenieria y Operaciones- Petrobras.Guando field. Company Man

PCP Artificial lift system change workovers for wells Guando-69, Guando-73, Guando-109 y Guando-123. High Magdalena oil and gas basin

SGF GLOBAL- Ecopetrol Apiay. Central District

Company Man for completion, workover and well service operations: hydraulic fracturing, perforating, water and gas intervals isolation, squeeze, ESP and PCP artificial lift systems change

Wells: Guatiquia-8, Gavan-5, Gavan-1, Suria-2, Suria-15, Suria Sur-10, Apiay-23H , Apiay-8, Tanane-2, Suria sur-1, Suria sur-10. Los Llanos oil and gas basin

2009 SERVIPETROL LTD, Calgary. Santa Cruz ,Bolivia Ministerio de Hidrocarburos. Senior Associate

YPFB, Repsol, Total and Petrobras operating companies for Itahu, Margarita and Sabalo giant gas fields potential analysis for production and sales increase to Brazil and Argentina

2007 – 2009 ZIFF ENERGY GROUP. Calgary.

Senior Associate

Drilling, completion, work over and, well service best practices in production technologies: data collection and interviews, data analysis and recommendations. Benchmarking assessment of six North German Oil Fields, Gaz de France company. Artificial lift systems ESP, gas lift, sucker rod and PCP.

Benchmarking for artificial lift best practices Salvador Bahia, Petrobras Unit. Artificial lift systems ESP, gas lift, PCP, sucker rod and hydraulic. Define, target, managed and monitoring KPI's. Data collection and interviews, data analysis and recommendations.

Eni- Burren Resources. Burun field in Turkmenistan. Workover , completion and well service best practices analysis and development of an Operations Improvement and implementation plan for drilling, completion, workover and well service.

Petrobras. Operating cost benchmarking and drilling, completion, workover and well service best practices analysis and recommendations for RNCE, Bahia, Espirito Santo, BSOL, Seal areas and 41 oil and gas fields. KPI's and efficiency analysis and opportunities for assets improvement analysis

2005 – 2007 ARABIAN GULF OIL COMPANY -AGOCO. Benghazi Libya.

Senior Staff Engineer. Company Man

Company Man for development drilling, workover, stimulation and completion supervision, design and planning for Nafoora field wells in Sahara desert. Carbonate reservoir under water flooding with more than 400 gas and oil wells produced 70-80,000 bopd. Wells to 12,000 feet G-95, G-96, G-97, G-101, G-102, G-103, G-105, G-120. Bahi oil and gas basin

Workover recommendations and supervision to isolate water and gas production zones, testing, install artificial lift system and startup horizontal wells with Nitrogen

Company Man for supervision for ESP with packer and gas handler completions to solve gas lock, casing leak and cable problems accomplished maintaining oil production. ESP design and recommendations to solve paraffin problems and H₂S corrosion problems.

Company Man for supervision for Gas lift to ESP conversion for high water cut wells accomplished oil production increase for shut in wells

Company Man for supervision and recommendation for artificial lift change system from natural flow to PCP and ESP in Sahabi field accomplished maintaining oil production

Gas lift, ESP and combination gas lift- ESP systems completion, design, troubleshooting and optimization for Nafoora field Sahara desert.

Chemical treatment Company Man supervision and recommendations for cleaning and stimulation with coiled tubing and workover rig to solve scale/ paraffin problems in Nafoora field wells accomplished improvement of oil production

Nafoora well database makeup including well testing, well analysis for declination, BHP and gradients, AL system performance, wire line works, WO/ WS history and recommendations

Supervision and workover recommendations for water isolation zones in ESP wells Messla field

Messla field sandstone reservoir (100,000 bopd) well data base make up and analysis to resolve sand production problems with gravel pack , declination analysis, ESP performance, BHP, WO/ WS history and recommendations for gravel pack and WO's

2003 – 2004 RIKE SERVICES. Worldwide.

Production Operations Instructor

Total Indonesia: On the job in training instructor for Production Operations in

Balikpapan, Senipah field at Mahakan river delta. Surface and subsurface production operations for shallow offshore oil and gas production.

2002 AGAT LABORATORIES, Calgary

Laboratory technician

Prepared porosity and resistivity reports for PetroCanada

Prepared core sample analysis reports for Pemex, Tampico field

2000 – 2002 Argosy Energy . Putumayo field, Colombia.

Field Superintendent. Company Man

Managed field operations including development drilling, workover, completion, refinery, production optimization in Hydraulic and ESP systems, chemical treatment. Company Man for planned, recommended and supervised drilling, work over works, well services and stimulation operations. Wells Mary-2, Mary-3, Miraflor-1 and Miraflor-2. Putumayo oil and gas basin

Developed environmental operations which accomplished the fulfillment of the environment laws and norms.

Conducted equipment maintenance, administration, safety and environmental.

Responsibility of 60 Argosy people and 100 contractors.

Engine generator CAT3606 commissioning, installing and start up.

1998-1999 Hocol Nimir- Reda/ Petrobras Neiva, Balcon field, Colombia.

ESP gas lift system engineer. Company Man

Company Man for development drilling, workover and completion for wells Balcon-2, Balcon-6, Balcon-10, Balcon -13. Designed, implemented and supervised work over, completion, made optimization for combination ESP gas lift system for high water cut wells. Reservoir under waterflooding with CO2 production. High Magdalena oil and gas basin

Company Man for planned and supervised fracturing, acidizing, paraffin cleaning, scale inhibition and completions works for Braspetro in wells Mangos-21, Mangos-32, Mangos-80, Mangos-39. Artificial lift system evaluation and optimization for Los Mangos wells which included PCP, gas lift, ESP and hydraulic.

1994 – 1997 Lasmo Oil- Ecopetrol. Guepaje and Provincia fields, Colombia

Field Manger- Company Man.

Purificacion field development. Development drilling, completion and workover

Company Man of five development wells: Purificacion-1 and Purificacion-2, Guepaje-1 and Guepaje-2. Sinu, San Jacinto Norte and Cicuco lower Magdalena gas basin. Middle Magdalena oil and gas basin

Directed gas and oil production and transportation operations.

Supervised of the contracts developed in the field.

Developed Safety and Environmental activities

Planned and recommended facilities construction and improvement

Diagnosed and designed separator reengineering for five stations in Provincia field.

Made gas lift optimization for more than 120 wells in Provincia field, resulted in improvement of gas sales and gas lift utilized for operations.

1989-1993 Occidental de Colombia Inc./ Petrosantander .Bogota, Colombia.

Production Operations Coordinator. Company Man

Company Man for supervised ,planned, and recommended development and exploratory drilling, workover, completion, stimulation and well services programs for more than 120 oil and gas wells for Las Monas area, increased oil production and revenues. Wells drilled La Salina-48, La Salina-49, La Salina-33, La Salina-32, La Salina-28, Payoa-30. Middle Magdalena oil and gas Basin.

As production department leader coordinated several major projects including La Salina33 production station design and construction, 25 psig Payoa compression and separating modification system.

Developed and implemented parallel gas lift system.

Made decline curve analysis for well service, workover recommendations as well as stimulation works..

Conducted and controlled capital investments, expenses budgeting and AFES for more than US\$ 15'000, 000 of Las Monas area operations.

Accomplished the financial and economic evaluation for development and exploration projects.

1984-1989 Occidental de Colombia Inc./Payoa, Colombia.

Production Engineer. Company Man

Company Man for drilling, workover, completion, stimulation, designed, implemented and optimized gas lift and sucker rod systems for more than 120 wells, resulted in better utilization of the gas and increased oil production and gas sales. Middle Magdalena oil and gas basin

Gas plant treatment, measurement and transportation optimization.

Gas well isochronal deliverability test. Gas well cleaning and inhibition for paraffin and asphaltene production

Supervised and evaluated production logging test and BHP test.

Company Man for recommended, coordinated and supervised well services, workover and completion works for gas, oil and injection wells

Recommended and executed Huff and Puff cyclic gas injection production method for Mugrosa heavy oil wells.

Recommended and executed construction and enhancement of facilities, separating and compression systems.

Planned and supervised coiled tubing operations for well start up, sand and paraffine cleaning, and acid stimulation operations.

Chemical treatment for heavy oil production in Mugrosa field

Design and optimize siphon pipes and plunger lift systems to dewater gas wells

1984 Universidad Industrial de Santander. Bucaramanga, Colombia

Petroleum Engineering Department Associate teacher

1978-1983 Ecopetrol . Bogota, Colombia. Halliburton Argentina. Mendoza, Argentina. Drilling Engineer. Company Man

Drilling Engineer for supervised operations and produced drilling and completion programs for wells

Supervised drilling and completion operations at well site, Middle Magdalena valley and Catatumbo basins in Colombia, San Juan, Mendoza, Comodoro Rivadavia and Salta in Argentina. Wells: Tibu-407K, Sardinata-32K, Eslabones-1X in Colombia. Matagusanos-1X deep well in San Juan Argentina to 18,000 feet, Ipaguezu-4x deep well in Salta Area Argentina to 16,000 feet

Made recommendations for completion, stimulation and improvement of fluids, cementing operations, perforating and electrical logs.
