Key Results:

Work according to the 6 key principles: show well, the right delights, service wow, sails are up, destination engagement and magical moments.

Sees all guests and crew, depending who require or request medical consultation.  
Does appropriate physical exam, orders or performs diagnostic tests, prescribes treatment

and medications.

Documents all medical activities performed on the ship by appropriate charting in the Ship's Medical Journal (Passenger and Crew), Accident Reports, Death Certificates, Controlled Substance Report. In the best interest of malpractice liability and quality assurance, the physician must sign each Passenger Medical Record. The nurse should make a specific notation that a physician's verbal order was given to dispense the medication. (This notation would not be necessary for the usual standing orders.) The physician should then sign the chart at a later time.

Performs diagnostic tests and treatments and dispenses medications.

Makes decisions on admission of passengers and crew members to the Ship's Medical Center, and on disembarkation of passengers or crew members for medical care on land, in conjunction with Hotel Manager and Captain.

Maintains an accurate inventory and dispensing record of controlled substances in accordance with D.E.A. regulations.

Maintains an accurate and up-to-date log of GIS cases as defined in the VSP/Health Canada manual. Insures proper notification made to VSP/Health Canada for each required voyage in accordance with regulations. Screens, monitors and documents other infectious disease issues as directed by Fleet Medical Operations.

Controls and maintains inventory of medical supplies per established procedural guidelines.

Clinical duties: performs patient triage, initiates the medical record, assists with patient exams as needed, performs x-ray and diagnostic/lab tests, provides acute and critical nursing care, performs patient education and follow-up care.

On call by beeper and/or telephone 24 hours/day

Follows all company policies regarding reporting, documentation and management of infectious disease cases.

Follows all company policies regarding environmental waste management.

Performs and manages other duties as assigned
