Structural Engineer

I begin my career as a Graduate Structural Engineer, I procured my skills in both design and managing the construction projects. Had learned in the Design of Conventional Slab and Flat Slab for basement, then moved to the Design of Beam, Column, Pile cap and Shear walls in accordance with British Standard. I involved in the Design of Steel Structure using Staad Pro, Etabs and Steel Connection details in compliance with BS 5950. In the meantime, I taught my colleagues in the Structural design and Software Design. Now I involved in to Design of Residential Apartment using Precast Concrete Structures
