Additional Skills :

I am fully conversant with fault finding on all types of instrumentation, instrument loops and on-site calibration and re-ranging of equipment including use of SMART communicators. Stripping down, repairing, bench testing in the workshop facility and re-instating of instrumentation.

Additional Information :

Having worked in the north sea for a number of years now both through my apprenticeship and also post apprenticeship i feel that i have developed my skills well and have become a skilled technician. I would like to now move on from the north sea into working oversea within the oil and gas industry. Being single with no commitments i am able to be very flexible within my life to suit the requirements for any type of contract.
