Additional Information :

I was responsible for treating patients of all types, handling emergencies, diagnosing, giving first aid and training crew first aid when required, stabilizing patient, and taking quick decision as to whether after stabilizing patient needs to be shifted to a big hospital in town or not, taking such critical decisions was part of my job responsibility and I have done it successfully and checking, inspecting and maintaining medical equipments and instruments which are life saving, Defibrillator, Flynn O2 Systems, Suction, resuscitators, Ambu bag (Resuscitator), Portable and fixed big Oxygen cylinders, splints, burns kit with gel, anti shock trousers, first aid kit and emergencies bag at hand up to date always. creating excellent culture on Rig Ensco 94 by implementing various programs like Hygiene Inspection, chiller, freezer inspection, Galley and accommodation inspection for Housekeeping and Hygiene, Catering crew inspection for grown nails, for hair net use in the kitchen and galley, steel mesh cutting gloves use while cutting and proper cleaning after use, treating patients, reporting of all incidents and weekly and monthly reports, daily meeting at 7 am for training Catering crew for importance of health, hygiene, blood born pathogens, how diseases spread through, air, water and feces etc. **MOTIVATING AND INSPIRING ALL TO WORK AS A TEAM, LIKE A FAMILY. I WAS INSTRUMENTAL IN RESOLVING CONFLICTS BEFORE THEY COULD BECOME A CHALLENGE TO THE SAFE AND EFFICIENT WORK CULTURE!!** I participated and assisted Safety Officer in all activities including training to crews and all drills for example Medi-Vac, Man overboard, Fire, H2S and, Rescue from Height Drills, taking roll call, checking T-Card System etc. Training crew for First Aid and proper lifting technique, use of proper PPE, trailing hand technique for hand rails and following all policies and code of conduct at all times. Reporting all important matters to OIM. Performed HLO duty for almost 10 Years successfully, sometimes handling 6 choppers a day. Attending and participating in all tool box meetings, JSA;s helping Safety Officer in PTW and Work Instructions and, STOP work drill Authority Drills etc. before all important jobs including Acid Jobs for cleaning Well, checking regularly expiry date for medicines etc., keeping hospital Inventory up to date, etc. During my tenure as Doctor on Ensco 94 for almost 10 years we never had a heat related, dehydration etc. case even once because of continuous training on re-hydration and monitoring the crew for whether they are drinking enough water often and getting ORS at regular intervals. I have varied experience in different hospitals and on oil rigs for more than Twenty eight years.
