## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
The realization of a final year project entitled the "Braille Printing Machine." This project not only challenged my technical skills but also fueled my desire to use technology for the betterment of society. Over the course of two years, I immersed myself in the intricacies of software and hardware engineering, computer networking, and the fascinating world of machine learning and deep learning. The Brain Tumor Classification using Deep Learning. I had the privilege of working for two renowned financial institutions CNEP-Banque and Société Générale Algérie. These roles allowed me to enhance my expertise in developing intelligent and robust banking solutions, managing APIs, and leading projects using Agile methodologies. Currently, I have taken on a new and exciting challenge as a Scientific and Technical Consultant at KPMG. This role enables me to combine my technical expertise, project management skills, and innovative mindset to deliver impactful solutions for diverse industries	Many big tech (IBM, Google, Meta) certificates in the fields of AI, Cloud computing, cybersecurity, software engineering and project management.
