Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

I work as a senior mechanic on drilling and workover platforms. I am responsible for the maintenance of equipment on site, and of course, safety comes first in all work, whether it is daily maintenance, maintenance every 250 hours, maintenance every 250 hours, or maintenance every 500 hours, and inspection maintenance every 6 months for the small and every year for the complex for most of the equipment and periodic inspection of the equipment that is working, which results in all of this working the equipment in safe ways and achieving the work goals and maintaining the company's profit. Working with the assistant and the mechanics' team in the spirit of one team. In addition to the routines related to the notebooks and computer registration and requesting the materials that the equipment needs continuously and requesting the materials for each inspection and sending reports to the maintenance manager, departments and warehouses. The diesel sheet and the equipment's consumption of diesel are the responsibility of the mechanics on site. Attached to CV. Working under pressure. Working in a team. Achieving the required maintenance without losses and with the highest efficiency. Safety first. Receiving the work order with an open heart. Dealing with the computer. Performing maintenance that requires sending to the maintenance workshops on site if spare parts are available, which saves the company a lot. Working in the maintenance workshops for a sufficient period of time, which qualifies me to provide professional maintenance on site. Certificates. Mentioned in CV. Hydraulics and pneumatics course. IWCF LEVEL 1 course. IWCF Work Management Course

Working under pressure, working in a team, achieving the required maintenance accurately, hydraulics and pneumatics course, IWCF LEVEL 1 course, IWCF work management course
