MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	1177
Name	khaled elgendy
Date of Birth	1976-11-13
Salary (in USD)	80000/
Industry	Drilling / Rig
Sub Industry	
Nationality	Egypt
Primary Language	English, Arabic,
Secondary Language	
Total Years of Experience	22

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Rules: Compliance with Regulations: Ensure adherence to all local and international laws and regulations related to drilling operations and environmental safety. Obtain all necessary permits before commencing operations. **Safety First:** Conduct all drilling activities in line with approved safety standards. Foster a safety culture among the team and contractors. **Resource Management:** Optimize the use of financial, human, and technical resources to ensure efficient and effective operations. Avoid wastage or overuse of equipment and materials. **Meeting Deadlines:** Ensure operations are completed within the set timelines, considering technical and environmental challenges. **Accurate Reporting:** Provide accurate and up-to-date reports to senior management on operations and budgets. **Responsibilities:** Planning and Organization: Develop detailed drilling plans, including design, equipment, budgets, and timelines. Coordinate with geological and engineering teams to select drilling locations. Team Management: Supervise drilling crews to ensure tasks are carried out as planned. Provide training and guidance to the team and contractors. Risk Management: Analyze and assess risks associated with drilling operations and implement measures to mitigate them. Monitor environmental conditions and take appropriate precautions. Supervising Equipment and Technology: Ensure that equipment is well-maintained and ready for operations. Stay updated on modern technologies to enhance operational efficiency. Budget Management: Prepare and monitor the allocated budget for drilling operations to avoid cost overruns. Identify ways to reduce costs without compromising work quality. Coordination and Communication: Collaborate with other departments (geology, engineering, logistics) for smooth operations. Liaise with suppliers and contractors to ensure the availability of materials and services. Emergency Response: Address technical or emergency issues that may arise during drilling operations. Make swift decisions to safeguard personnel and facilities. Performance Evaluation: Assess the performance of drilling operations and identify ways to improve efficiency and productivity.
