Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

As a Blowout Preventer (BOP) technician, I specialize in the maintenance and servicing of all types of BOPs, including ram and annular models. My responsibilities include accurately calculating volumes, pressures, and forces critical to oilfield operations. I ensure all tasks are completed within the scope of the job, prioritizing safety and precision. Preparing detailed job reports promptly is an integral part of my role, along with performing maintenance and repairs on field rental equipment to ensure operational readiness. I am proficient in executing high-pressure and high-temperature testing and maintaining hydraulic torque wrenches for seamless functionality. My work involves producing detailed BOP inspection reports, which are essential for operational compliance and decision-making. A fundamental understanding of control units enables me to efficiently organize tasks in the workplace, ensuring smooth operations. I am experienced in preparing equipment for non-destructive examination (NDE) inspections, ensuring all standards are met. Additionally, I manage the rigging and slinging of heavy equipment, prioritizing safety during handling and transport. These responsibilities underscore my technical expertise, attention to detail, and commitment to excellence in the oil and gas industry, ensuring reliable equipment performance and adherence to safety protocols in demanding environments.

IWCF STCW
Rigging and slinging
Forklift Overhead
Crane HSE
