## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

--- As a rig electrician, I take on the responsibility of maintaining all rig equipment with a high commitment to safety. My duties involve adhering strictly to the Planned Maintenance System (PMS), which includes Preventive Maintenance (PM), Predictive Maintenance (PDM), and Corrective Maintenance (CM). Ensuring that all equipment is in optimal working condition is a top priority. I am proficient in using SAP One ERP for managing maintenance tasks and generating permits required for rig electrician jobs. This involves a thorough understanding of the system and its functionalities. My role also includes ordering materials through the system, ensuring that the correct part numbers are used to facilitate smooth operations. Creating work orders and notifications is a significant part of my responsibilities. This involves detailed documentation of the tasks to be performed, ensuring clarity and precision to avoid any misunderstandings. My commitment to these tasks ensures that the rig operates safely and efficiently. In addition to these responsibilities, I continuously strive to enhance my skills and knowledge to keep up with the latest industry standards and safety protocols. This dedication to professional growth ensures that I can contribute effectively to the team and the overall safety and functionality of the rig

Bachelor of Science  
in Electrical  
Engineering  
(BSEE)"\*
