## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Dear Sir, Good day to you. I have H2S optio & T-Bosiet optio courses Certificates. Please find my resume and DP Maintenance certificate attached. I am available at any time and have Indian Unlimited COC. Please let me know. Cover Letter, As the watchkeeping officer in charge of my responsibilities, I make sure that every piece of equipment in the engine room and pump room is inspected every day for basic routines. The OEM also inspects every piece of equipment on a daily and monthly basis, including all pumps, valves, fuel oil cargo pumps, fresh water cargo pumps, RO WATER MAKER SYSTEM, fresh water hydrophore, and sew water hydrophore. After that, the heat water calorifier and fresh water micron filters. For routine maintenance on the main engine and generator, the PMS maintenance system is used on a daily and monthly basis. The OEM's planned maintenance chart should be followed when performing crane maintenance. Visually inspect the wire ropes and structure, look for leaks, check the levels of water and oil, etc. Greasing drum bearings, sheave bearings, and other moving components in accordance with the OEM greasing schedule.(If a crane block is used for submerged operations, then all operations need to be greased.) If the maintenance is done correctly, there will not be any malfunctions. If there is a problem, I have experience fixing and troubleshooting. The Anchor Winches also undergo visual inspection, leak detection, daily oil level checks, and other maintenance in accordance with the OEM schedule. Air tugs, air compressors, pneumatic heavy-duty tools, and workboat OBM engines are all inspected, maintained, and troubleshot/repaired on a daily basis as needed. Thank you and best regards. Raja Perumal Gurunathan Third Engineer +91 8870299606
