Industry	Drilling / Rig
Sub Industry	
Nationality	Algeria
Primary Language	English,
Secondary Language	
Total Years of Experience	11

Additional Information

Roles and Responsibilities	Additional Skills/Certification
The Driller is the person on a rig who is in charge of the well drilling process, they supervise the crew and the running of the rig itself. They are responsible for monitoring things like pressure build-ups and gas levels, with safety being of paramount importance. Drillers are one of the very few people with the authority to shut down the well if an emergency occurs. The Toolpusher, driller and rig crew will work for a drilling contractor, taking their operational orders from the Company Man or Drilling Supervisor who represents the operator company For a driller, skills are arguably more important than specific qualifications, with a lot of the experience required coming through working through the ranks on a rig. Typically, good critical thinking, excellent communication skills, steady hands and good coordination make up the skills toolbox for a driller. There are two main well control certifications, with many companies wanting at least one. These are the IADC and the IWCF. For offshore rigs, the standard industry certificates such as BOSIET, HUET or MIST are essential, as is a medical to prove good health.	Iwcf level 03 H2s.rig pass Permit to work Stuck pipe
