## Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

<p>Over the past 22 years, I have gained extensive experience in: Oil and Gas Services: Field operations, coil tubing, jetting operations, maintenance and service support, material supply chain, contracting, and tendering. Industrial Operations: Wood and metal industries, product design, production technology, and execution (including conventional and CNC programming/machining), as well as quality control. Training and Maintenance: Conducting technical training programs and overseeing installation, maintenance, and repair processes. With a strong background in project management, technical operations, and execution, I bring a comprehensive approach to managing product life cycles. My expertise spans: End-to-End Product Management: From ideation, market surveys, and design to execution technology, budgeting, sourcing, production, quality testing, marketing, sales, customer feedback, and continuous product improvement and development. I am confident in my ability to contribute effectively to your team by leveraging my diverse skills and commitment to excellence.</p>	<p>Project Management _Planning   Estimation   Negotiating  Operation  Coordination   Execution   Delivery  Governance - Cost Improvement - Quality Assurance   Management.</p>
