Additional Information

Roles and Responsibilities	Additional Skills/Certification
I check well control equipment for any hazards, making sure that the correct mud weight, correct drill pipe and casing sizes are being used to drill the well, maintaining the well control parameters such as the well bore pressures, weight on bit, checking the drilling tools and equipment. Also perform regular inspections, troubleshooting, and repairs on the drilling equipment, and report any issues or malfunctions to the driller. also ensure that the drillers helpers follow the standard operating procedures, safety rules, and environmental regulations on the rig. I mplemented and enforced the health, safety, and environmental policies and practices on the rig, and conduct regular safety meetings and drills with the drilling crew in communication with QHSE personal. As a proces engineer I oversaw the parameters and flaws in pumping equipment and separators to make corrections in the operational model and coordinated the activities of the operators.	I have a TOEFL ITP with a B2 level, Basic Safety Training Offshore, Onshore and Offshore IADC RIGPASS, H2S course, Anexo SSPA, Permit system for hazardous work, Gas analyzer, IADC Wellsharp, Coiled tubing simulator, and fire prevention cert.
