Salary (in USD)	10000/
Industry	Maintenance & Inspection
Sub Industry	
Nationality	Algeria
Primary Language	English, Arabic,
Secondary Language	
Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

As a technician specializing in mechanical rotating and static equipment, I bring a comprehensive skill set essential for maintaining industrial machinery. My expertise spans the installation, maintenance, troubleshooting, and repair of rotating equipment such as compressors, pumps, turbines, and fans, as well as static equipment like heat exchangers, pressure vessels, and piping systems. I excel in diagnosing mechanical issues using advanced techniques such as vibration analysis, thermal imaging, and ultrasonic testing, ensuring equipment operates at peak performance. My ability to interpret technical schematics and manuals allows me to perform precise repairs and proactive maintenance, reducing downtime and extending equipment lifespan. Safety and compliance are integral to my approach. I consistently adhere to industry standards, ensuring the highest levels of operational safety and reliability. Collaboration with engineers and operators is a key aspect of my role, as it fosters innovation and optimizes system performance. Additionally, I maintain detailed service records and recommend system upgrades or preventive measures to improve efficiency and reliability. My proactive attitude, strong mechanical aptitude, and dedication to excellence make me a valuable asset in ensuring smooth industrial operations while minimizing operational risks and enhancing productivity.

PSV technician (API 526, API 576) JSO (Jop Safety Observation) Work permit
