Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Hello Holder of a Master in oil and gas drilling from university of kasdi merbah Ouargla Algeria , I have worked as rig liaisonman and onshore rigs since 2014. It means with total experience of 10 years (4 years in development wells and 6 years in exploration wells (4 years gas wells and 6 years oil wells). I have strong background and attractive experience in oilfield . As I worked in different fields; development and exploration wells; oil and gas wells; HPHT wells; during my experience I encountered all types of drilling problems; from partial to total losses; from all types of stuck to problems of mud. I used to drill with different mud fluids; water base mud and polymer to oil base mud. I learnt to deal with critical situation in well control. I fave problems while performing cement job; I can manage to overcome troubles to save time and take the appropriate decision. Generally before I take any situation I assess that situation to see head what will be the consequence. In term of planning; I prepare all equipment that we need to avoid any delay of operations.

Stuck Pipe training HSE certificate with SAHARA
 Directional Drilling Techniques Drilling Equipments Directional drilling
 H2S certificate with BSS Casing and Cementing Operations Well head BHA and Drill Bits Daily Drilling Reporting Systems IADC
