<b>Primary Language</b>	English,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	26

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	----------------------------------------

My role as Toolpusher centers on ensuring the safe and efficient execution of drilling operations during my shift. As the on-site supervisor, I hold ultimate responsibility for all activities on the rig floor. This involves close collaboration with my team the Driller, Derrickhand, and Roustabouts to maintain consistent communication and adherence to the drilling program. Safety is paramount, and I enforce strict compliance with established procedures. Continuous monitoring of equipment and drilling parameters is essential for proactively identifying and resolving any operational issues. Drilling is a dynamic process, often requiring adjustments and problem solving, and I'm responsible for making informed decisions in these situations. Beyond the technical aspects, leadership is a critical component of my role. My crew depends on me for guidance and support, demanding strong communication and decisive action. Given the demanding nature of the work, fostering a positive and collaborative team environment is crucial. Managing logistics, including ensuring adequate supplies, and meticulously documenting our progress are also key responsibilities. Ultimately, my objective is to guarantee that we drill the well safely, efficiently, and in accordance with the planned parameters. This challenging but fulfilling role requires a blend of technical expertise, leadership skills, and a steadfast commitment to safety, and I'm dedicated to upholding the highest standards in all aspects of the operation.

IWCF level 4, IADC  
Supervisor Level,  
Bosiet, Opito HS2
