## Personal Information

<b>Candidate id</b>	2128
<b>Name</b>	Mohammed
<b>Date of Birth</b>	1987-08-25
<b>Salary (in USD)</b>	7000/Per Month
<b>Industry</b>	Drilling / Rig
<b>Sub Industry</b>	Directional Driller
<b>Nationality</b>	Egypt
<b>Primary Language</b>	Arabic,
<b>Secondary Language</b>	English,
<b>Total Years of Experience</b>	12

## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

1. Oversee Drilling Operations: Manage and supervise all drilling activities on the rig, ensuring operations are conducted safely, efficiently, and in compliance with company and regulatory standards. 2. Ensure Safety Compliance: Enforce strict adherence to health, safety, and environmental (HSE) policies and procedures to prevent accidents and ensure the well-being of all personnel. 3. Coordinate with Stakeholders: Liaise with clients, engineers, geologists, and other stakeholders to ensure drilling operations align with project objectives and timelines. 4. Supervise Crew: Lead and manage the rig crew, and other personnel, ensuring they are properly trained and performing their duties effectively. 5. Monitor Drilling Performance: Oversee the drilling process, including monitoring drilling parameters, equipment performance, and well conditions to ensure optimal efficiency and safety. 6. Troubleshoot Issues: Address and resolve operational challenges, such as equipment malfunctions, well control issues, or unexpected geological conditions. 7. Maintain Equipment: Ensure all drilling equipment and machinery are properly maintained, inspected, and repaired as needed to avoid downtime and ensure operational efficiency. 8. Manage Budgets and Resources: Oversee the rig's budget, including costs for materials, equipment, and personnel, and ensure resources are used efficiently. 9. Report Progress: Provide regular updates to senior management or clients on drilling progress, challenges, and achievements, including detailed reports and documentation. 10. Implement Best Practices: Stay updated on industry standards and technological advancements, and implement best practices to improve drilling operations. 11. Train and Develop Staff: Identify training needs for the rig crew and provide guidance to improve their skills and knowledge. 12. Ensure Regulatory Compliance: Ensure all drilling activities comply with local, national, and international regulations and standards. 13. Handle Emergencies: Be prepared to respond to emergencies, such as blowouts or equipment failures, and take decisive action to mitigate risks and ensure safety. 14. Manage Logistics: Oversee the transportation and storage of equipment, materials, and personnel to and from the rig site. 15. Conduct Inspections and Audits: Perform regular inspections and audits of the rig and its operations to ensure compliance with safety, quality, and operational standards
