04/04/2025 HUMAN RESOURCES MANAGER, FALCON COMPANY.

Dear Sir/Madam, I am pleased to apply for an employment in the post of Driller job position at your Company. I am looking forward to hearing from you soon. I excel at meeting the deadlines, I always exceeding my expectations and working with a variety of people. I enjoy working in the office & field environment the challenge of meeting the Project goals. My long time career goals are to work as Geotechnician and driller, I have been working at Fuxing Resources limited as Mult Driller & Geotechnician in Dodoma-Tanzania. I believe this position is an excellent chance for me to show case my unique skill set at your Company During my previous role at Anglo Ashanti Geita Gold Mining. I played an integral part in Mining Geotechnical support for 5years as Geotechnical + Mechanical Technician. I coordinated various schedules and meetings. I also worked on many different special projects which resulted in a 50% productivity increase for the entire office compared to the previous years. I have almost 10years of experience working in the Mining Geotechnical, Geology and Exploration Drilling, As well as Construction Projects in Tanzania. I maintaining a high level of professionalism is always a top priority and I believe every employee is valuable and should be treated with respect. I graduated in My Advanced High school Certificate in February 2006 and I finished in the top 5% of my graduating class. I believe the combination of my education and prior work history give me an excellent chance to succeed at your Company. Thank you for taking the time to review and consider my job application, I can't wait to learn more details regarding the Driller job position at your Company and I hope to hear from you soon. I believe that I am a highly qualified candidate for this position and I can be a valuable employee at your Company. Please let me know if you have any questions. Note : To attend the Drilling operation duties and responsibilities i.e Tripping pipes in and out of the boreholes and assist to make pipes connection and gyro survey, mud mixing, Data collection and reporting, Safety awareness, Rig supervision, Rig up and rig down supervision, Assist on making fishing tools.
