

FALCON®
MULTI SERVICES LTD

Falcon Multi Services Ltd

201, Creado, Juhu Chruch Road, Juhu Mumbai 400049

Personal Information

Candidate id	2209
Name	Fasih Ahmed
Date of Birth	1995-03-13
Salary (in USD)	150/Per Day
Industry	Oilfield Services
Sub Industry	Mud Logging
Nationality	Pakistan
Primary Language	English,
Secondary Language	English,
Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Successfully drilled 5 wells to depths of 4,000 meters , managing complex HPHT conditions with zero major incidents. • Optimized water-based and oil-based mud systems , reducing operational costs , while maintaining performance and compliance. • Mitigated fluid loss scenarios (partial and total losses) using tailored Lost Circulation Material (LCM) pills , cutting non-productive time (NPT). • Enhanced cementing, liner casing, and well completion outcomes through advanced bit selection and drilling fluid hydraulics. Mud Lab Expertise: Precision in Fluid Design and Testing • Designed specialized mud systems—including spud mud , KCl polymer mud , oil-based mud , and glycol mud —achieving 100% operational success without complications. • Conducted rigorous testing on additives like bentonite , PAC LV/HV , PHPA , barite , and emulsifiers , ensuring optimal compatibility and cost efficiency. • Reduced material costs through data-driven additive selection. Consistently delivered drilling fluid solutions that reduced non-productive time (NPT) and improved overall drilling efficiency. • Enhanced wellbore stability and minimized fluid loss incidents through innovative mud formulations and LCM applications. • Contributed to the successful implementation of a real-time reporting system, improving collaboration between field operations and head office teams.
