Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

A toolpusher is a key supervisor on an oil rig or drilling platform, responsible for the daily operational management of drilling activities and the safety and well-being of the crew. They manage the drilling crew, ensuring that operations are executed safely and efficiently, and that all necessary equipment and resources are available. Toolpushers oversee the day-to-day drilling operations, ensuring they are carried out according to plan and safety regulations.

Managing the Drilling Crew: They lead, direct, and coordinate the activities of the drilling crew, ensuring they are working safely and efficiently. They are responsible for ensuring that all necessary tools, equipment, and materials are available for the drilling operations.

Monitoring Work in Progress: Toolpushers closely monitor the drilling process, identifying and addressing any issues or challenges that arise.

Maintaining Equipment: They oversee the maintenance and upkeep of all drilling equipment, ensuring it is in good working order.

Managing Inventory: They manage the inventory of tools and equipment, ensuring proper storage and organization.

Troubleshooting: They are responsible for quickly addressing any problems or issues that arise during operations, using their problem-solving skills to maintain the flow of work.
