Personal Information

Candidate id	3030
Name	Sameer
Date of Birth	1972-03-25
Salary (in USD)	8500/Per Month
Industry	Drilling / Rig
Sub Industry	OIM
Nationality	India
Primary Language	English,
Secondary Language	Hindi,
Total Years of Experience	32

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Here are the roles and responsibilities of an Amphion Driller working on a jack-up or offshore drilling rig: ? ? Roles of an Amphion Driller: 1. Rig Operations Leader Oversees the entire drilling operation using the Amphion Drilling Control System—a semi-automated touchscreen and joystick interface. 2. Safety Supervisor Ensures strict compliance with HSE (Health, Safety, Environment) procedures during operations. 3. Team Supervisor Manages the drilling crew (assistant driller, derrickman, roughnecks) to ensure smooth and safe operations. 4. Control Room Operator Operates from the Amphion Driller’s cabin, monitoring and controlling critical equipment like: • Top drive • Mud pumps • Drawworks • Iron roughneck • Pipe-handling systems ? ? Key Responsibilities: ? Drilling Operations • Monitor and control drilling parameters (WOB, RPM, mud flow, pressure, etc.) • Execute well plans as per instructions from the Toolpusher and Company Man • Maintain drilling logs and reports • Perform tripping in/out operations • Identify drilling hazards like stuck pipe, loss circulation, etc. ? Safety & Emergency Response • Conduct pre-job safety meetings (Toolbox talks) • Follow permit-to-work systems • React immediately to alarms and shut down if needed • Participate in regular drills (fire, blowout, man overboard) ? Equipment Monitoring & Maintenance • Daily checks on Amphion systems, sensors, and hydraulic/pneumatic systems • Report malfunctions to the Toolpusher or Maintenance Supervisor • Ensure backup systems and redundancy are operational ? Personnel Management • Supervise and train crew on Amphion systems and safe operations • Delegate tasks efficiently • Evaluate crew performance and recommend training as needed ? Coordination • Communicate clearly with Toolpusher, Mud Engineer, Directional Driller, and Crane Operator • Ensure all activities comply with the drilling program ? ?? Technical Skills Required: • Proficiency in NOV Amphion Control Systems • Understanding of well control (IWCF or IADC certified) • Knowledge of downhole tools, mud systems, and drilling mechanics

1. Amphion System Proficiency • Full control and troubleshooting knowledge of NOV Amphion Drilling Control System • Understanding of touchscreen & joystick operations, software modules, and automation logic

Education Summary

Course	University	Passing Year	Country
ITI	St Joseph’s engineering institute	1994	India

Career Summary

Position	Employer	Country	From	To
Driller	Velesto energy international	Malaysia	09/2019	06/2025
