| Total Years of Experience | 6                   |

## Additional Information

|                            |                                 |
|----------------------------|---------------------------------|
| Roles and Responsibilities | Additional Skills/Certification |
|----------------------------|---------------------------------|

In my previous role as a Floor Man at National Drilling Company (NDC), I was responsible for performing manual labor on the rig floor, including handling and connecting drill pipes, operating tongs and slips, and assisting with the running and pulling of drilling tools. I actively supported the drilling crew and driller in day-to-day operations, ensuring proper alignment, efficiency, and communication during all rig activities. I maintained strict compliance with HSE (Health, Safety, and Environment) regulations, participating in regular safety drills and toolbox talks. I contributed to maintaining clean and hazard-free work areas, properly handling equipment, and reporting any unsafe conditions. I have completed several safety training programs including IWCF Level 1, firefighting, first aid, and confined space entry, which improved my readiness and awareness during emergency situations. Additionally, I collaborated closely with maintenance teams to identify equipment issues, assisted with rig-up and rig-down procedures, and demonstrated the ability to work long shifts under pressure and follow instructions accurately

IWCF Level 1 – Well Control Fundamentals  
IWCF Drilling Well Control Awareness (Surface & Subsea)  
IWCF Barrier Management

## Education Summary

| Course                  | University                                          | Passing Year | Country |
|-------------------------|-----------------------------------------------------|--------------|---------|
| English course Level B2 | Bachelor's Degree in Management Information Systems | 2014         | Egypt   |
