-----------------------------------	--

Cleaning , maintenance ,painting , offload and back load work on height , work with team , cleaning the deck , equipment maintenance , Help on the drilling operations, handling materials and equipments, cleaning and maintaining the rig ,preparing equipment for use,suring that operations run smoothly and safely. They are often the first point of contact for many tasks on the rig, and their work is essential to the overall efficiency of the operation. A roustabout is an entry-level position in the oil and gas industry, involving physically demanding support tasks on drilling rigs and production platforms. Their work is crucial for maintaining the smooth operation of oil wells and ensuring safety on site. Roustabouts handle a variety of tasks, including cleaning, equipment maintenance, and assisting with drilling operations. Equipment Maintenance: Assist in maintaining drilling rig equipment, including cleaning, lubricating, and performing routine maintenance tasks to ensure proper functioning and safety compliance. Material Handling: Load and unload drilling supplies, equipment, and materials onto the rig using cranes, forklifts, or manual labor. Transport materials to and from storage areas and assist with inventory management. Deck Operations: Assist with rigging operations, including setting up and dismantling equipment, handling drilling tools and pipes, and securing loads during lifting and hoisting operations. General Labor: Perform various manual labor tasks as directed by supervisors, such as painting, cleaning, and general housekeeping to maintain a safe and organized work environment on the rig.
