Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

HSEQ RIG AUDITOR / IADC-CERTIFIED RIG INSPECTOR Conduct comprehensive rig inspections in accordance with IADC HSE Guidelines, API standards, ASME codes, NFPA 20, NFPA 70E, and LEEA standards to ensure regulatory compliance and operational safety. Implement NFPA 70E and NEC 110 protocols to mitigate electrical hazards such as arc flash and electrical shock, ensuring proper equipment grounding and electrical safety. Audit and verify safety and quality management systems against ISO 9001, ISO 22000, HACCP, and FDA Food Code requirements to maintain high safety standards. Enforce safety signage, labeling (ANSI Z535), fire safety (NFPA 10), and API recommended practices during site assessments to promote effective safety communication. Lead and monitor dropped object prevention programs in line with DROPS standards and API RP 75, achieving measurable reductions in dropped object incidents through targeted safety initiatives. **HHSEQ REPRESENTATIVE** Support client HSE representatives during site visits by providing documentation, reports, and safety data. Train and coach rig crew members on safety practices, including the use of PDF Cards, Job Safety Analysis (JSA), and Behavior Safety Audit (BSA). Develop and conduct emergency drill scenarios, documenting findings and action items to foster continuous improvement. Monitor compliance with HSEQ policies, participate in safety audits, and assist in investigations to uphold safety standards. **SENIOR HSE ENGINEER** Analyze QHSE data statistically, preparing reports and recommendations to inform senior management decision-making. Design and implement HSE awareness campaigns to strengthen safety culture across the organization. Ensure continuous compliance with HSE Management System standards, leading efforts for ongoing safety improvements. **RIG HSE ENGINEER** Deliver safety training and orientation sessions for new employees to promote understanding of HSE practices. Conduct hazard surveys, safety drills, and inspections to identify risks and ensure a safe working environment. Lead safety meetings and provide multilingual HSE training to ensure crew comprehension and compliance. **HSE SPECIALIST** Perform food safety audits and deliver hygiene and safety training for subcontractor staff. Manage corrective actions for non-conformances to ensure adherence to food safety and quality standards. **HSE ENGINEER (Powerline Technical Services)** Assess workplace hazards and coordinate safety management efforts on construction projects, ensuring compliance with OHSAS and ISO standards. **HSE ENGINEER (Orascom & Club Med)** Conduct site inspections, safety training sessions, and risk assessments to ensure regulatory compliance across diverse project sites.

Hazard ID, incident investigation, training, management systems, KPIs, continuous improvement, teamwork, punctuality, innovation, resourcefulness, hard work, open-mindedness, self-learning, motivation, and computer skills (Word, PowerPoint, Excel).
