Total Years of Experience	20

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

• Supervised daily rig operations and coordinated maintenance activities. • Led rig operations ensuring compliance with client and international standards. I have held various roles in offshore drilling, most recently as an OIM with Various Drilling companies, where I was responsible for overseeing daily offshore operations, ensuring compliance with health, safety, and environmental standards, and managing a multidisciplinary team. During my tenure, I demonstrated strong leadership skills and a commitment to operational excellence, managing a team of 120 personnel and coordinating with various departments to ensure smooth operations. My role also involved liaising with senior management and clients, preparing reports, and ensuring that project milestones and budgets were met. As an experienced OIM, I am adept at managing the day-to-day challenges that come with offshore drilling operations, including personnel safety, equipment maintenance, and the implementation of operational procedures. My commitment to safety has been a cornerstone of my career, and I have successfully led initiatives that resulted in a reduction in safety incidents and improved operational efficiency. Additionally, I am familiar with the latest drilling technologies and the regulatory requirements necessary for compliance in the offshore industry.

IWCF, Bosiet, H2S, MEMIR
