## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

As a Drilling Supervisor, I am responsible for overseeing the safe and efficient execution of drilling operations from spud to total depth. I lead daily activities on the rig site, ensuring all operations comply with company policies, industry regulations, and safety standards. My duties include managing and coordinating rig crews, third-party service providers, and contractors to maintain high performance and minimize downtime. I conduct pre-job safety meetings, enforce hazard mitigation procedures, and ensure that all personnel adhere to proper safety practices. I play a key role in implementing the drilling program, monitoring drilling parameters, maintaining well control, and troubleshooting operational challenges in real-time. I am accountable for maintaining accurate daily reporting, tracking costs, and staying within budget while ensuring operational efficiency. I also plan and coordinate rig moves and logistics, ensuring minimal disruption and seamless transitions between well sites. I work closely with drilling engineers and head office personnel to communicate progress, suggest improvements, and ensure that objectives are met. My role demands strong leadership, decision-making, and communication skills to deliver wells safely, on time, and within budget
