Industry	Drilling / Rig
Sub Industry	OIM
Nationality	Egypt
Primary Language	Arabic,
Secondary Language	English,
Total Years of Experience	9

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

As an experienced Assistant Driller with a strong understanding of offshore drilling operations, I am fully capable of supporting the Driller in safe and efficient well control and drilling activities. My responsibilities include continuous monitoring of well parameters, maintaining proper mud weight, and ensuring the stability of the wellbore at all times. I have practical experience in supervising floor crews during tripping and pipe-handling operations, as well as conducting regular checks on BOP systems and pressure control equipment. I am skilled in operating and inspecting mud pumps, checking liners, modules, and ensuring that all service lines are functioning correctly. I also coordinate with the Derrickman to monitor mud tanks, confirm no unauthorized changes in mud weight, and maintain accurate records of mud transfers. Safety is my top priority, and I ensure strict adherence to ADNOC HSE policies and international drilling standards during all operations. Additionally, I assist in preparing daily drilling reports and provide clear communication between the Driller, Toolpusher, and rig crew to ensure smooth operations. I am proactive, safety-conscious, and fully certified in IWCF Well Control Level 3, BOSIET with HUET & Sea Survival, and H2S awareness, which enables me to perform my duties effectively under high-pressure offshore conditions.

iwcf lvl3 , T-BOSIT
