Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Program Implementation: Oversee the execution of the approved workover program, ensuring all activities align with technical specifications and the wellbore plan. Safety Leadership: Lead and enforce all health, safety, and environmental (HSE) procedures. This includes conducting pre-job safety meetings, performing JSAs, investigating incidents, and ensuring all safety-critical equipment is operational. Coordination & Supervision: Direct and coordinate the daily work of the workover rig crew and various contractors, ensuring efficient and safe operations. Operational Monitoring: Monitor real-time drilling and wellbore conditions, equipment performance, and overall rig efficiency, making adjustments as needed. Logistics and Supply Management: Arrange for the transportation of equipment, manage the inventory of supplies, and request necessary services and materials for the job. Reporting and Documentation: Prepare and submit daily reports on operations, costs, and safety, and ensure accurate documentation of wellsite activities and well history. Problem-Solving: Identify and resolve operational problems, troubleshoot challenges that arise, and implement solutions to keep the operation on schedule. Personnel Management: Oversee the crew, assist with training, and conduct on-site audits to assess personnel competence and performance. Communication: Serve as the primary liaison between the company and the rig contractor, ensuring clear communication and cooperation among all parties involved.	-Outstanding troubleshooting and maintenance skills. - Utilize total quality and safety management principles to operate successfully in a stressful, fast-paced deadline-oriented, “no errors” environment.
