Industry	Oilfield Services
Sub Industry	
Nationality	India
Primary Language	English,
Secondary Language	
Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

As a Rotary Technician, my primary responsibility is to ensure the smooth and reliable operation of all rotating equipment in the plant, such as pumps, compressors, turbines, blowers, and gearboxes. I perform preventive, predictive, and corrective maintenance to minimize equipment downtime and optimize performance. My duties include vibration analysis, alignment and balancing of rotating machines, lubrication monitoring, bearing inspection, and replacement of defective components. I follow standard maintenance procedures, safety guidelines, and equipment manuals to carry out overhauling, installation, and commissioning of rotary equipment. I maintain detailed maintenance records and assist in root cause analysis of mechanical failures to improve reliability and equipment life. Additionally, I coordinate with operations and engineering teams to plan maintenance schedules and ensure spare parts availability. I am also responsible for reporting abnormalities, maintaining housekeeping standards in work areas, and adhering to safety and environmental regulations. Through continuous monitoring, inspection, and teamwork, I help achieve higher equipment efficiency, reduced breakdowns, and improved plant productivity.

Diploma in
mechanical
engineering
