Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Inspections and audits: Conduct daily, weekly, and monthly inspections of the rig, equipment (like cranes and forklifts), and work areas to identify hazards and ensure compliance with safety and sanitation standards. Risk assessment and analysis: Perform risk assessments and Job Safety Analyses (JSAs) for all operations, and ensure contractors also meet safety standards. Training and communication: Provide safety inductions and training for new hires, visitors, and contractors. Conduct pre-tour safety meetings and "toolbox talks" to discuss potential hazards and best practices. Incident management: Investigate accidents and incidents, report findings, and maintain records. They also manage systems for reporting unsafe conditions. Emergency preparedness: Develop and implement emergency procedures and conduct regular emergency drills for situations like evacuations. Record-keeping: Maintain all safety-related documents, records, and registers. This includes managing the training matrix and filing inspection and meeting attendance sheets. Promoting a safety culture: Act as a safety representative for the rig manager, address employee concerns, and actively work to create a strong, proactive safety culture across all personnel. PPE and first aid: Monitor the proper use of personal protective equipment (PPE) and ensure first aid facilities are managed and accessible.
