## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Dear Hiring Manager, I am writing to express my sincere interest in the given position at your esteemed company. With a robust background in petroleum engineering and a comprehensive understanding of well services equipment, I am eager to contribute my skills and expertise to your team. My journey in the petroleum industry began upon graduating with a Bachelor's degree in Petroleum Engineering in 2017. I subsequently gained valuable experience at Deep Industries Pvt. Ltd., where I worked on a workover rig from May 2017 to November 2018. During this time, I developed a keen interest in well services equipment and its critical role in optimizing drilling operations. Building on this foundation, I joined Schlumberger Kuwait in June 2019, where I served on a 3000hp super drilling rig until October 2023. In this role, I had the opportunity to work closely with a wide range of well services equipment, including hydraulic fracturing units, coiled tubing units, and cementing units. I thrived in an environment that demanded precision and reliability, ensuring that all equipment was maintained to the highest standards to maximize efficiency and mitigate operational risks. What excites me most about the position, is the opportunity to leverage my expertise in well services equipment to drive operational excellence and deliver exceptional results. I am passionate about staying abreast of the latest advancements in equipment technology and implementing best practices to enhance performance and safety standards. My proactive approach to equipment maintenance and troubleshooting has consistently contributed to the successful completion of drilling projects under challenging conditions. I am particularly drawn to company for its reputation as an industry leader and its commitment to innovation and excellence. I am confident that my background, coupled with my passion for well services equipment, aligns well with the company's goals and values. I am eager to bring my unique perspective and contribute to the continued success of your team. Thank you for considering my application. I am enthusiastic about the opportunity to discuss how my skills and experiences align with the needs of company. Please find my resume attached for your review. I am available at your earliest convenience for an interview and look forward to the possibility of joining your team. Warm regards, Wajahat Hussain... I am interested in assistant driller position. Had served my service as one. Show quoted text
