## Additional Information

<b>Roles and Responsibilities</b>	<b>Additional Skills/Certification</b>
-----------------------------------	--

Develop awareness and ensure quality and HSE compliance are an integral part of Line Management responsibilities and objectives. Assist management and support functions in: implementing and improving the Quality and HSE Management Systems, and defining quality and HSE objectives; liaising with customers, subcontractors and agencies regarding quality and HSE; assessing local risks and generating and implementing local policies and plans; setting up controls to verify implementation and maintaining related records. Conduct review meetings to assess the effectiveness of the Quality and HSE Management Systems and identify required improvements. Coordinate and participate screening and training of personnel, including subcontractors. Keep abreast of new developments or policies related to quality and HSE, and inform management accordingly. Ensure that HSE documentation is readily available on site. Advise management on compliance with local and national HSE regulations of the host country. Liaise with subcontractors, customers and local agencies regarding HSE. Participate in quality and HSE audits and investigations of major failures and accidents. Develop and maintain a high level of awareness among all personnel through communication, training and ensuring employee participation in quality and HSE incident prevention and reporting activities.
