Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

1. Equipment Operation Operate various types of cranes (EOT, gantry, crawler, tower, mobile, etc.) safely and efficiently. Lift, move, position, and place materials or equipment as per site requirements. Adjust crane controls to regulate boom, hoist, and swing functions. 2. Inspection and Maintenance Conduct daily pre-operation inspections of the crane and lifting gear. Identify mechanical issues and report malfunctions immediately. Ensure cranes are maintained according to manufacturer and company standards. 3. Safety Compliance Follow site-specific safety procedures, load charts, and lift plans. Maintain clear communication with riggers and signalers using standard hand or radio signals. Ensure the crane is positioned on stable ground before lifting. Keep work areas free from obstructions and hazards. 4. Documentation and Record Keeping Maintain accurate logbooks and inspection records. Record all maintenance, incidents, and daily lifting operations. Assist with documentation for load testing and certification. 5. Coordination and Teamwork Work closely with rigging teams, supervisors, and safety officers. Communicate effectively during critical lifts to avoid accidents. Assist in developing lift plans for complex or heavy lifts. 6. Regulatory Adherence Comply with local and international lifting regulations (e.g., OSHA, IS standards). Participate in safety drills, toolbox talks, and training programs. 7. Emergency Response Operate cranes safely during unexpected weather or mechanical challenges. Take immediate action during breakdowns or unsafe conditions.

OSHA certified operator
