Supported drilling and well operations for HPHT onshore and offshore wells under the Real-Time Operations Center (RTOC) of Reliance Industries Limited. Streamlined drilling data workflows and report automation processes, contributing to reduced non-productive time (NPT) and improved real-time decision-making. Prepared and analyzed daily drilling reports (DDR), RTOC summaries, and OPENWELL Landmark outputs, ensuring accurate documentation of well parameters, mud properties, and bit performance. Collaborated with drilling, mud logging, and directional drilling teams to monitor deviations, optimize bit runs, and ensure compliance with well control and safety standards. Integrated data visualization and analytics tools to identify trends in rate of penetration (ROP), pressure variation, and wellbore stability, supporting well performance evaluation. Assisted in preparing post-well analysis reports summarizing operational challenges, lessons learned, and recommendations for future wells.	Reservoir Engineering: Reservoir Engineering, Well Test Analysis, Formation Evaluation, Hydraulic fracturing • Software & Tools: Techlog, Kappa, Openwell, PROSOURCE, ImageJ, Python (Basic), MATLAB • Soft Skills: Strong teamwork and communication skills,
