Secondary Language	English,
Total Years of Experience	23

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

A tool pusher supervises all drilling operations, ensuring work is performed safely, efficiently, and according to contractual standards. Their responsibilities include managing the crew and rig personnel, overseeing safety and equipment maintenance, and handling administrative tasks like reporting, managing supplies, and ensuring compliance with regulations. Key roles and responsibilities

Supervision and coordination: Direct and manage all drilling, well completion, and workover activities. Oversee and coordinate the drill crew to ensure smooth and safe operations. Manage crew performance, personnel issues, and administrative duties like payroll and discipline.

Safety and compliance: Ensure operations comply with company standards, contractual requirements, and applicable legislation. Perform regular safety inspections and ensure equipment, including blowout preventers (BOPs), is in good working order. Ensure all personnel follow safety protocols and have the proper personal protective equipment (PPE).

Operations and logistics: Manage the rig's operations, including directing rig setup and teardown. Ensure the efficient use of drilling equipment, materials, and supplies. Monitor the progress of activities and address any discrepancies with the client's program. Oversee the mud system's preparation and use.

Administration and communication: Liaise with the client's representative to discuss project details and contractual matters. Report to supervisors about the status of operations and resolve problems as they arise. Fulfill reporting routines and maintain accurate records.

Technical oversight: Provide instruction to the crew on how to execute the client's program correctly. Use strong technical knowledge to understand and oversee equipment like the BOP and diverter systems. Ensure well control and drilling operational procedures are followed.
