Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Supervised rigging up operations for various drilling rigs, ensuring compliance with safety and operational standards. Performed major maintenance and troubleshooting on 1500 HP and 2000 HP drilling rigs (SCR and VFD types). Oversaw installation, commissioning, and functional testing of rig electrical and mechanical systems. Conducted preventive and corrective maintenance (PMS) in accordance with manufacturer manuals and company maintenance schedules via the SAP system. Lead and supervise a team of mechanics and technicians to ensure the reliability and efficiency of all drilling machinery and mechanical equipment. Develop and implement preventive maintenance programs to reduce equipment failure and extend asset lifespan. Diagnose mechanical issues using advanced diagnostic tools and equipment, ensuring prompt resolution to minimize downtime. Plan, schedule, and coordinate maintenance and repair activities to align with operational priorities and deadlines. Ensure strict adherence to safety policies, procedures, and regulations to maintain a safe working environment. Conduct regular inspections and audits of mechanical equipment and tools to ensure operational readiness. Collaborate with operations, engineering, and procurement teams to optimize equipment performance and lifecycle management. Manage spare parts inventory, procurement processes, and supplier relationships to maintain adequate stock levels and cost control. Provide technical guidance, training, and mentorship to mechanics and apprentices to build team skills and competencies. Maintain compliance with environmental and regulatory standards related to mechanical operations.
