Industry	Engineering & Science
Sub Industry	
Nationality	Croatia (Hrvatska)
Primary Language	English,
Secondary Language	
Total Years of Experience	10

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

experienced Electro-Technical Officer with over ten years in marine electrical and automation systems, including offshore wind operations. Currently, I serve on DEME Group's Green Jade (DP3 Heavy Lift Wind Turbine Installation Vessel), handling installation, maintenance, and troubleshooting of high-voltage, automation, and propulsion systems in demanding offshore environments. I bring hands-on expertise in DP3 power and propulsion systems, high-voltage distribution, Wärtsilä and MAN main engines together with generators, and advanced automation platforms such as Kongsberg K-Chief 700, Terasaki, and Ingeteam. Previously, my tenure with Royal Caribbean International included large-scale refits and dry dock projects, notably the Oasis of the Seas amplification in Cadiz, showcasing my technical leadership and teamwork skills. I am eager to contribute my experience in offshore electrical systems, renewable energy vessels, and advanced DP3 operations to enhance operational efficiency and reliability. I would welcome the opportunity to discuss how I can support your team in delivering safe and innovative offshore solutions.

ETO CoC, Huet, GWO...
