Additional Information

Roles and Responsibilities	Additional Skills/Certification
<p>A floorman, also known as a floorhand or roughneck, plays a crucial role in the oil and gas industry. Their primary responsibility is to assist in drilling equipment operations and maintenance on the rig floor. Here are some of their key roles and responsibilities - *Equipment Handling*: Assist in setting up and taking down drilling equipment, operate drilling equipment like tongs, elevators, and slips, and handle drill pipes, casing, and tools. - *Maintenance and Cleaning*: Perform routine maintenance checks, troubleshoot equipment issues, and maintain a clean and safe work environment. - *Safety*: Follow safety procedures, report any hazards or safety concerns, and ensure a safe work environment for themselves and others. - *Teamwork*: Collaborate with other crew members, communicate effectively, and work together to achieve drilling objectives. - *Drilling Operations*: Assist in drilling activities, such as connecting and disconnecting drill pipes, and operating manual tongs. - *Inspection and Reporting*: Monitor equipment operation, report any abnormalities or potential safety hazards, and inspect equipment regularly.</p>	<p>Good team player</p>
