Industry	Drilling / Rig
Sub Industry	
Nationality	Egypt
Primary Language	English, Arabic,
Secondary Language	English,
Total Years of Experience	15

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

I have extensive hands-on experience working in the oil and gas drilling industry as a key member of the rig operations team. My duties include supporting rig move activities, assisting the rig floor crew during tripping operations, and working closely with the Derrickman to ensure smooth circulation and pipe handling. I am skilled in operating and maintaining drilling tools, handling drill pipes, and following well control procedures to ensure safe and efficient drilling operations. Throughout my work, I have been responsible for maintaining a clean and safe rig floor, preparing equipment for drilling activities, and supporting BOP area operations during critical tasks. I have participated in multiple rig moves, where I assisted in dismantling and assembling rig components, securing loads, and coordinating with cranes and transport teams. I have completed certified First Aid, HSE, and basic well control awareness courses, which strengthened my understanding of emergency response, hazard identification, and safe work practices. I always follow company procedures, PPE requirements, and international safety standards. My experience has allowed me to work effectively in high-pressure environments, communicate clearly with drilling crews, and contribute to maintaining efficient, reliable, and safe drilling operations on site.
