Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

<p>An HSE Advisor in Aramco is responsible for ensuring that all project activities comply with Saudi Aramco safety standards, procedures, and regulatory requirements. The role involves conducting regular site inspections, identifying hazards, and implementing corrective and preventive actions to maintain a safe working environment. The advisor supports the development and implementation of project-specific HSE plans, JSA/JHA, and risk assessments to ensure safe execution of all tasks. The advisor monitors high-risk activities such as lifting, hot work, confined space entry, work at height, and energised work, ensuring all permits and controls are properly applied according to Aramco’s GI, SAEP, and CSM standards. They provide HSE induction, toolbox talks, and ongoing safety training to workers and supervisors, promoting strong safety culture and compliance. Incident reporting and investigation form a key part of the role—collecting evidence, identifying root causes, preparing reports as per Aramco’s incident classification system, and ensuring implementation of recommendations. The HSE Advisor also maintains documentation, prepares weekly and monthly HSE reports, tracks KPIs, and participates in safety audits and walkthroughs with Aramco representatives.</p>	<p>Compliance related to HSE</p>
