Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Experienced and safety-focused Electrical Maintenance Engineer with over 5 years of expertise in onshore drilling rigs and residential settings. Skilled in the installation, troubleshooting, and repair of motor control systems, wiring, and monitoring instrumentation. Proficient in maintaining electrical systems, ensuring compliance with safety regulations, and coordinating with technical departments. Adept at handling high-pressure environments, multitasking, and leading teams to achieve operational excellence. Conducted routine inspections, maintenance, and repairs on electrical systems of drilling equipment, including Top Drive Systems, DC motors, draw works, and mud pumps, ensuring minimal downtime. Supervised and coordinated electrical operations on the rig, ensuring compliance with safety standards and operational efficiency. Diagnosed and resolved complex electrical faults in power generation and distribution systems, including SCRs, switchgears, and transformers. Installed and configured new electrical equipment, including wiring, fixtures, and control panels, adhering to technical specifications. Collaborated with mechanical and tool pusher departments to ensure seamless rig operations and timely completion of tasks. Maintained accurate records of maintenance activities, repairs, and equipment performance for reporting and auditing purposes.
