Total Years of Experience	10

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Proficient in the use of 475 Process Meter, HART Communicators. Insulation Resistance Test, Hipot Test for MV and LV breakers for electrical devices Troubleshooting of various instruments such as control valves and on/off valve . Proficiency in Distributed Control System DCS, SCADA, HMI, PLC and troubleshooting of same Fire and Gas Suppression Systems such as - Gas detector - Flame Detector - Manual Call Point - Alarm System - Fire Suppression Systems using nozzle and IG cylinders. With over 10 years of Electrical and Instrumentation (E&I) experience in oil and gas projects, including commissioning, start-up, and PACO systems, I bring strong technical expertise in HV/LV operations, loop checks, FAT/SAT, HSE compliance, and operational readiness assurance. Key strengths include: Delivered commissioning and start-up for multiple brownfield and greenfield facilities, achieving 100% system handover readiness. Led PACO commissioning teams ensuring compliance with Goal Zero Safety and project QA/QC standards. Collaborated in HAZOPs, Design Reviews, and EFAT/SIT to verify system integrity and ensure on-schedule delivery. Proficient in Yokogawa and Wonderware control systems, with proven experience in risk management and stakeholder coordination. I am confident that my background in commissioning, electrical systems integration, and project execution aligns strongly with your expectations for this role. I would appreciate the opportunity to discuss how I can contribute to Westpaq's commissioning and start-up objectives. Thank you for your time and consideration. Etc
