With over 15 years of experience in the oil and gas industry, I have built strong expertise in the maintenance, inspection, and repair of static equipment, including gas turbines, compressors, heat exchangers, pressure vessels, and piping systems. During my career with Egyptian Maintenance Company (EMC), I successfully supervised and executed global maintenance activities and shutdowns across multiple oil and gas projects in Egypt and Iraq. My role required leading diverse teams, ensuring compliance with HSE regulations, and delivering safe and efficient solutions within tight deadlines. This experience has strengthened my leadership, problem-solving, and technical skills, enabling me to consistently achieve project goals and support company objectives. I am highly motivated to bring my background in static equipment maintenance and my commitment to safety and efficiency to your organization.
