Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

With over 13 years of experience in the Oil & Gas industry, I have developed a strong expertise in operating and controlling various plants, including Refineries, LNG and LPG Gas plants, and POL terminals. My experience encompasses commissioning, decommissioning, and normal plant operations, ensuring safe and efficient management of processes. I have worked extensively with a wide range of equipment, including pumps, compressors, vaporizers, heat exchangers, condensers, and re-condensers, as well as storage tanks, jetty equipment, chillers, sub-coolers, distillation columns, ORVs, heaters, boilers, and flares. Additionally, I have hands-on experience with various safety equipment and systems. My expertise includes cargo ship loading and unloading operations, ensuring compliance with safety standards and regulations. I am proficient in operating and controlling plants through DCS panels, optimizing process parameters for efficient and safe operations. My experience has been gained through working with various Oil & Gas companies, where I have successfully handled complex operational tasks and emergencies, ensuring minimal downtime and optimal productivity. I am confident in my ability to contribute to the efficient operation of Oil & Gas plants, prioritizing safety, reliability, and environmental responsibility.

Having various Safety courses certificates like live fire fighting course, hazardous chemicals handling course, H2s and combustible gas, Confined space entry permit, Hot Work permit, WPS, Hazop study and RA.
