Secondary Language	English,
Total Years of Experience	23

Additional Information

Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

Dear Hiring Manager, My name is Ahmed Sayed Mahmoud Said, I am writing to express my strong interest in joining your esteemed organization in a senior electrical engineering role. With over two decades of experience in electrical systems, audits, and rig operations within the oil and gas industry, I have developed extensive technical expertise, leadership skills, and a strong long commitment to maintaining safety and operational excellence. I hold a Bachelor's Degree in Electrical Power and Machines Engineering from Aswan University (2001). From April 2021 to August 2025, I have been working as an Electrical Auditor and Project Engineer at Arabian Drilling Company (ADC) in Saudi Arabia, where I conduct electrical audits and Full Condition Surveys for multiple rigs, ensuring full compliance with API and international standards including IEEE, IEC, NEC, and NFPA. My responsibilities include preparing detailed technical reports, training rig supervisors, and participating in large-scale projects such as the commissioning and testing of 14 new skidding rigs in China. From May 2005 to April 2021, I served as Chief Electrician at Arabian Drilling Company (ADC), responsible for preventive and corrective maintenance of SCR Ross Hill 1400 systems, VFD systems, Cyber standards. Previously, commissioning Chairs, - also and between projects, trained_ HMI July control junior managed 2002 units. and electricians I CAPEX May in successfully budgets, safety, 2005, led I and worked electrical troubleshooting, ensured at teams and compliance on Transocean system major with rig Offshore reliability. Saudi upgrade Aramco Drilling and International in Egypt, where I gained extensive hands-on experience in maintaining DC and AC motors, Top Drive systems, and PLC programming for Koomey units, ensuring uninterrupted rig operations through efficient troubleshooting and maintenance. Throughout my career, I have earned several certifications including PMP, Managerial Leadership, and Time Management, in addition to specialized technical training in PLC Siemens S7 (200-400 Series), ABB ACS800 AC Drive, SCR Ross Hill 1400 systems, CAT 3500 Engines, and Firefighting. have also completed multiple HSE and safety courses covering H2S, Confined Space, First Aid, LOTO, Permit to Work, and Root Cause Analysis, among others. I take pride in my ability to combine strong technical knowledge with leadership and project management skills to ensure safe, efficient, and high-quality operations. I am confident that my experience and dedication to continuous improvement would make a valuable contribution to your organization's success. Thank you for considering my application. I look forward to the opportunity to discuss how my skills and background align with your company's goals. Kind regards, Ahmed Sayed

- Ability to work under pressure and stress.
Technical Skills:
Ability to read and interpret electrical schematics and blueprints. Knowledge of PLC and VFD fundamentals is highly desirable.
