Total Years of Experience	5

Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Crane operation: Control cranes to lift, move, and position heavy objects and materials according to instructions and lift plans. Equipment inspection: Perform daily checks of the crane and its components, such as cables and outriggers, to ensure they are in good working condition before operation. Safety and compliance: Follow all safety protocols and regulations, monitor site conditions like weather, and ensure loads are within approved limits to maintain a safe work environment. Communication: Coordinate with ground personnel, riggers, and supervisors using clear signals and verbal instructions to guide the safe and precise placement of loads. Maintenance and repairs: Conduct basic maintenance and minor repairs on the crane. This can also include documenting any malfunctions and reporting them to the proper personnel. Record keeping: Maintain accurate records of operations, including daily logs of lifts, equipment usage, and any maintenance performed. Setup and assembly: Set up cranes according to manufacturer specifications, which may involve assembling tower cranes or placing outrigger pads for stability. Load management: Read and interpret load charts and lift plans to understand the weight and dimensions of the load to be lifted. ?
