Additional Information

Roles and Responsibilities	Additional Skills/Certification
-----------------------------------	--

Support the rig manager in managing staff, equipment, and resources, assisting with operational decisions, troubleshooting problems, and ensuring all activities adhere to safety protocols. Key duties include managing client schedules, monitoring performance, helping with budget preparation, and contributing to project planning. Key responsibilities Operations and safety: Ensure all drilling operations are conducted safely and efficiently, resolving operational problems as needed and enforcing health, safety, and environmental (HSE) regulations. Personnel management: Support the rig manager in daily supervision of offshore staff, helping with recruitment, and coordinating training for junior team members. Client relations: Maintain effective communication with client representatives, ensuring that client drilling schedules are met. Compliance: Ensure all rig operations and maintenance align with company policies, contractual requirements, and regulatory standards. Financial and project support: Assist with the preparation of annual budgets and help manage complex or high-value projects. Performance analysis: Analyze operational and HSE performance data to recommend improvements to working practices and procedures. Reporting: Prepare reports for senior managers and provide holiday/field break cover for Rig Managers.
