Roles and Responsibilities	Additional Skills/Certification
----------------------------	---------------------------------

<p>Participates in drilling rig (Types of Drilling Rigs) erection and dismantling and assures the integrity of rig derrick structure, hoisting systems, valve position, and circulating systems, and other drilling rig components. Acts as a guide in the mud pump area and maintains mud pits and rig floor based on the directions of the Driller and ToolPusher. Ensures the smooth functioning of the drilling fluids (OBM – Water Based Drilling Fluid). It includes the daily inspection, safety maintenance, and general repairs of mud equipment as requested by the Mud Engineer. Maintains proper functioning of the tools in the chemical, mud, and pump rooms. Derrickman also assists the drillers and Roughnecks in the drilling operations. In addition, he ensures chemicals (Oil-Based Mud Additives– Water-Based Drilling Fluid Additives)and drilling fluid mixture according to the needs of drilling activities. Supervises the loading of liquid mud products on water vessels proficiently. Directs and coordinates rig crew members in the adequate performance of on-field duties. Prepares required paperwork, risk assessments, and permits as directed by operators. Align pipes, connect them with the others, and set up the drills and rigs for safe transport. Moreover, optimize the drilling tools like rig diesel motors, mud apparatus of the pumps and drilling, transmissions, mud chemicals, cement, additives, etc.</p>	Opito BOSIET
